BELLWETHER-1 Experiment Report

Experiment Design Summary

CHSH Bell test bound into authorization nonce / ProofRecord entropy witness on IBM Quantum hardware (**ibm_fez**), job **d9dje2cjeosc73fhm230**.

Measured Results

- **Measured CHSH S value:** 2.5140
- **Verdict:** Observed CHSH violation UNDER STATED TRUST ASSUMPTIONS

Honesty Boundary

This is a device-dependent Bell-violation witness. Locality and detection loopholes remain OPEN on co-located superconducting qubits. This result is NOT loophole-free and NOT device-independent certified randomness.

Provenance

- **bell_nonce:** 1f692e4d0b69bfd7da79f16ea77c0f30645292f9fdd9fbe114a2adcbab1a3f65
- **record_hash:** 16ae4850b8b91f2f79184a1e5d9af503f4652a2b9bd9a1c29c338f3e3a1f97ae

To God be the glory. Proof Before Power. Verification Before Execution.
